

Sailor Mean (Goku's Bully)

Daddy Jim Headquarters

[Verse 1]

Goku walked in, looked around
Two fingers ready, sensing sounds
Then she appeared with that crescent glow
Grabbed his gi and said where you think you go?
Moon Tiara wrapped around his waist
Yanked his drawers up to his face
Kamehameha couldn't save him now
Sailor Mean just shut him down

[Pre-Chorus]

She said in the name of the moon
I'm gonna make you look like a fool
Ultra Instinct can't dodge this shame
Sailor Mean, she don't play no games

[Chorus]

Sailor Mean, she so cold
Got Goku bowing down, doing everything he's told
Sailor Mean, running this scene
The strongest Saiyan?
Now he's looking weak

[Verse 2]

Venus Chain got him tied to a pole
Luna laughing, this is getting old
She took his Nimbus for a joyride
Threw his Senzu Beans to the side
Instant Transmission?
She blocked the signal
Now he's standing there looking simple

[Chorus]

Sailor Mean, she so cold
Got Goku bowing down, doing everything he's told
Sailor Mean, running this scene
The strongest Saiyan?
Now he's looking weak

[Verse 3]

Chi-Chi called, said what's going on?
Goku whispered baby, I'll be home
But Sailor Moon hit him with that healing kiss
Left him stunned, he can't resist

[Final Chorus]

Sailor Mean, she so cold
Got Goku bowing down, doing everything he's told
Sailor Mean, running this scene
Earth's greatest hero?
Just Sailor Mean's plaything
