

Whis is Straight

Daddy Jim Headquarters

[Verse 1]

They say he's flamboyant, they say he's divine
Angel with the staff, keepin' Beerus in line
But after he's done trainin' Goku and Vegeta all day
He got a different side, let me tell you 'bout his way
He's the fastest in the universe, that ain't no lie
When he reverses time, all the ladies catch his eye
Purple skin glowin', white hair flowin' free
All these goddesses want him desperately

[Chorus]

Whis is straight, Whis is straight
Angel of destruction, but he's your soulmate
Rewinds time just to get another date
Staff in his hand, but love's what he creates
Whis is straight, Whis is straight
Strongest angel, never hesitates

[Verse 2]

Bulma tried to flirt, but she's with Vegeta now
Vados is his sister, so that ain't allowed
Chi-Chi's too feisty, Android 18's taken too
But the universe is big, and he's got options, ooh
He taught Ultra Instinct, he's the master of the game
When he's not servin' Beerus, he's out there makin' names
They see him at the buffet, think he's just about the food
But he's scoutin' all the ladies, settin' up the mood

[Final Chorus]

Whis is straight, Whis is straight
Angel of destruction, but he's your soulmate
Whis is straight, Whis is straight
Rewinds time just to get another date
Whis is straight, Whis is straight
Staff in his hand, but love's what he creates
Whis is straight, Whis is straight
Strongest angel, never hesitates
